Program Administrator's Message

The ACCESS (Alternative, Community, and Correctional Education Schools and Services) programs provide year-round educational options. Curriculum offerings are aligned with local districts and with the California Standards and Frameworks. Through a variety of powerful learning strategies (e.g., directed study, differentiated instruction and mastery learning), students are prepared to achieve proficiency-level literacy. Teachers are encouraged to bring critical-thinking, problem-solving and decision-making skills into the classroom, working with students individually or through group participation.

The key to success is the personalized learning plan and student interaction with staff members who focus on each individual with care, concern and guidance. This relationship provides the student with positive school experiences. Students are encouraged to demonstrate respect for self and others, good work habits, and a sense of personal and community responsibility in a positive learning environment.

We provide support services to enable students to learn appropriate behavior and pro-social skills.

We assist students in transferring newly acquired skills to situations and behaviors they encounter outside the school environment. The multicultural demographics in Orange County assist teachers and students in learning respect for the diversity of many cultures.

Juvenile Hall and the other institutional schools received a six-year accreditation from the Western Association of Schools and Colleges in the spring of 2016.

All ACCESS programs come under one of five categories: county community schools, juvenile court schools, the Orange County Community School (OCCS), correctional education and the Adult Correctional Education Program (ACEP). Programs are supported by student support services such as special education, categorical support (in the form of Title I and other grant programs) to serve institutions, group homes and community schools.

Correctional Education (students whose delinquent behavior has led to restrictions imposed by the judicial system [incarceration and/or probation]), Federal and Student Support Services (ACCESS programs are supported by a variety of specialized support personnel including counselors, psychologists, special education, and Title I staff, including group home tutors and transition specialists), and Adult Correctional Education Program ACEP (educational programs for adults ages 18 and older, residing in correctional institutions).

School Mission Statement

The ACCESS mission is to provide a continuum of services for agency partners and school districts that prepare all students to be college and career ready.

School Vision Statement

ACCESS students will be college and career ready by acquiring 21st century skills to become contributing members of their community.

Parental Involvement

Research tells us that family involvement in schools makes a big difference. When schools, families and communities work together, student achievement increases. ACCESS Juvenile Hall School welcomes and encourages family participation in a variety of ways.

Parent engagement activities are coordinated with Probation, the Orange County Health Care Agency, and other educational partners.

Parents receive the School/Family Compact, which outlines specific ways that parents can support their child's education at home, such as helping their child develop school and career goals.

Bilingual Family Community Liaisons assist parents with information and resources, parent-teacher conferences, and family events and meetings, held either in-person or virtually.

Semi-annual events such as Open House cover a wide range of information, including graduation requirements, assessment, curriculum and instruction, college and career readiness, and student health and safety-related topics.

Parenting classes are available to families through the Orange County Health Care Agency and community partners, such as Padres Unidos. Monthly workshops on a variety of topics, such as substance use prevention and college and career readiness, are conducted in-person or virtually.

Interpretation in Spanish is provided at all parent workshops, meetings, and events.

Parents, school personnel, and Probation staff may be elected to serve on the School Site Council, District English Learner Advisory Committee (DELAC) and English Learner Advisory Committee (ELAC).

For more information on how to become involved, please contact Wendy Rogan at (714) 836-1563.

School Accountability Report Card

In accordance with state and federal requirements, the School Accountability Report Card (SARC) is put forth annually by all public schools as a tool for parents and interested parties to stay informed of the school's progress, test scores and achievements.

Mission Statement

The mission of the Orange County Department of Education is to ensure that all students are equipped with the competencies they need to thrive in the 21st century.

Vision Statement

Orange County will lead the nation in college and career readiness and success.

Class Size Distribution

The bar graph displays the three-year data for average class size, and the table displays the three-year data for the number of classrooms by size. The number of classes indicates how many classrooms fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Enrollment by Grade

The bar graph displays the total number of students enrolled in each grade for the 2021-22 school year.

Note: Data collected during the 2020–21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

This table shows the school, district, and state suspension and expulsion rates collected between July through February, partial school year due to the COVID-19 pandemic.

Note: The 2019–20 suspensions and expulsions rate data are not comparable to other year data because the 2019–20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019–20 school year compared to other school years.

Public Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available at a workstation, and the ability to print documents.

California Physical Fitness Test

Each spring, all students in grades 5, 7 and 9 are required to participate in the California Physical Fitness Test (PFT). The Fitnessgram is the designated PFT for students in California public schools put forth by the State Board of Education. Due to changes to the 2021–22 PFT administration, only participation results are required for the five fitness areas.

Encouraging and assisting students in establishing lifelong habits of regular physical activity is the primary goal of the Fitnessgram. The table shows the percentage of students participating in each of the five fitness components for the most recent testing period. For more detailed information on the California PFT, please visit www.cde.ca.gov/ta/tg/pf.

Types of Services Funded

Categorical funding provides paraprofessionals in almost every classroom as well as professional development, after-school tutoring, transition support and supplemental instructional materials.

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

SARC Reporting in the 2020–21 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

The CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

CAASPP Test Results in Science for All Students (grades 5, 8 and high school)

The table below shows the percent of students meeting or exceeding the State standard on the CAASPP – California Science Test (CAST) and the California Alternate Assessment for Science (CAA for Science) for grades 5, 8, and once in high school (i.e., grade 10, 11 or 12).

Mathematics	*	0%	*	40%	*	33%

▲ This school did not test students using the CAASPP for Science.

* Data for 2020–21 are not comparable to other year data due to the COVID-19 pandemic during the 2020–21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020–21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020–21 school year to other school years.

Statewide Assessments

Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

CAASPP by Student Group: Science, English Language Arts and Mathematics

The tables on the following pages display the percentage of students that met or exceeded state standards in science, English language arts/literacy and mathematics for the school by student groups.

The “percentage met or exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAA divided by the total number of students who participated in both assessments.

Note: The number of students tested includes all students who participated in the test whether they received a score or not. However, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Graduation and Dropout Rates

This table displays the graduation and dropout rates for the most recent three-year period for which data is available. The four-year adjusted cohort graduation rate is the number of students who graduate in four years with a regular high school diploma divided by the number of students who form the adjusted cohort for the graduating class. From the beginning of grade 9 (or the earliest high school grade), students who are entering that grade for the first time form a cohort that is "adjusted" by adding any students who subsequently transfer into the cohort and subtracting any students who subsequently transfer out.

Textbooks and Instructional Materials

The Orange County Board of Education has certified that all students have access to standards-based instructional materials in the academic core.

The textbooks are consistent with the content and cycles of the curriculum frameworks adopted by the State Board of Education.

The Orange County Department of Education has affirmed that each pupil, including English Learners, has their own textbook to use in class and to take home. This public hearing occurred on August 17, 2022.

Career Technical Education Programs

Students at Rio Contiguo and the Juvenile Hall have the opportunity to participate in a formalized career exploration program through Paxton Patterson college and career labs and industry certification courses. Stand-alone exploratory CTE courses are offered at Rio Contiguo provide students with hands-on learning opportunities to explore their interests in high-demand career fields and develop college and career readiness skills. A two-year Building and Construction Trades pathway has been developed at the Juvenile Hall. The ACCESS program plans to work with OC Pathways to seek articulation agreements for their alternative education courses in the Building and Construction Trades pathways. Paid internship opportunities within the Building and Construction Trades pathway are to be explored with regional partners for ACCESS students. All CTE courses offered are assigned to CTE credentialed teachers. CTE standards aligned curriculum and materials are adapted and differentiated to be accessible to all student populations.

Students will also have the opportunity to achieve industry-recognized certification that will qualify and prepare them for entry-level employment. Industry certificates offered:

1. ServSafe CA Food Handler Certificate
2. Express Employment Professionals Career Preparedness Certification (ICEV)
3. Southwest Airlines Professional Communications Certification (ICEV)
4. Texas Tech University Center for Financial Responsibility Personal Financial Literacy Certification (ICEV)

Next steps include the integration of additional relevant industry-recognized certification in Building and Construction pathway.

ACCESS is a member of the OC Pathways K12SWP Career Counselor Coordinator consortia. CTE Coordinators participate in CTE professional development bi-weekly, focusing on implementation of student-focused high quality CTE. ACCESS participates in OCDE's Career and Technical Education Partnership (CTEp) Industry Advisory Committees. Work-based learning (WBL) and other opportunities are provided by multiple business partners such as mentoring, presentations and hands-on activities. Next steps include developing ACCESS CTE program-specific industry partnerships tailored to at-promise youth as well as program specific industry advisory meetings.

ACCESS works closely on an ongoing basis with OC Pathways, and local and regional partners to develop a high quality CTE program utilizing best practice approaches in curriculum and instruction to improve access and equity in outcomes for all students.

School Facility Good Repair Status

The table shows the results of the school’s most recent inspection using the Facility Inspection Tool (FIT) or equivalent school form. This inspection determines the school facility’s good repair status using ratings of good condition, fair condition or poor condition. The overall summary of facility conditions uses ratings of exemplary, good, fair or poor. At the time of this school facility inspection, no deficiencies were found.

School Facility Good Repair Status		2022-23 School Year
Items Inspected	Repair Status	
Systems: Gas leaks, sewer, mechanical systems (heating, ventilation and HVAC)	Good	
Interior: Interior surfaces (floors, ceilings, walls and window casings)	Good	
Cleanliness: Pest/vermin control, overall cleanliness	Good	
Electrical: Electrical systems	Good	
Restrooms/fountains: Restrooms, sinks and drinking fountains	Good	
Safety: Fire safety, emergency systems, hazardous materials	Good	
Structural: Structural condition, roofs	Good	
External: Windows/doors/gates/fences, playgrounds/school grounds	Good	
Overall summary of facility conditions	Good	
Date of the most recent school site inspection	10/4/2022	

School Facilities

Alternative Education/ACCESS school sites are mostly located on leased properties throughout Orange County. The ACCESS program is mostly responsible for the general and routine maintenance of these facilities. The school sites are well maintained by coordinating the ACCESS facilities maintenance procedures and a work-order system in conjunction with contracted services to ensure facilities are in good condition.

Annual Facility Inspection Tool (FIT) reports and facility visits are also part of the maintenance procedures that help to manage and retain the aesthetics and appearance of facilities. The cleanliness of the sites remains a central concern of good condition by having carpets cleaned biannually, window cleaning quarterly and deep cleaning annually.

Juvenile Hall education facilities consist of a library, athletic fields, basketball courts, handball courts, 19 classrooms and six classrooms inside the juvenile hall residential units. There are no portables. The facilities are more than sufficient to meet the needs of the educational program. All of these facilities and areas are maintained by the Probation Department. Administrators for the school complete work orders for any school repairs and submit to the Probation Department staff on-site.

We take the following maintenance procedures to ensure that our facilities are in good and safe condition: Routine maintenance, repairs and safety issues are reported through the ACCESS work-order system managed by the ACCESS Facilities and Operations office.

Work orders are prioritized daily by emergency status, health and safety issues. They are assigned daily to the maintenance crew by the lead facilities maintenance technician (FMT).

In addition, the ACCESS Facilities and Operations manager meets daily with the lead FMT to review work orders for determining, identifying or planning any issues requiring specialized maintenance or repair.

Any maintenance or repair services that are outside of the general maintenance procedures are contracted to the specific field of the repair or maintenance.

Monthly facilities inspections are performed by on-site staff to ensure that no unsafe condition that may cause an accident or bodily harm to anyone at the school site or grounds exist. These inspections and findings are reported on the monthly Safety Report and are turned in to the ACCESS Facilities and Operations office for review. Any unsafe conditions reported are followed-up with the manager and maintenance staff. They are then sent to Risk Management to document the findings.

Any exterior maintenance and repairs such as plumbing or electrical, roof replacement, driveway, parking lots, sidewalks, mechanical, major utility systems, and HVAC systems are the responsibility of the Probation Department.

School Safety

The ACCESS School Site Safety Plan is updated annually; the last review date was January 2022. The next School Site Safety Plan review will be conducted on January 2023. The ACCESS School Site Safety Committee is responsible for approving the School Site Safety Plan and making future recommendations. Members include teachers, administrators, safety coordinators and law-enforcement representatives. The ACCESS School Site Safety Plan is reviewed by the administrator and staff of each administrative unit prior to approval.

Contents of the School Site Safety Plan include, but are not limited to, board policies, safe school strategies and programs, crisis-response procedures and threat-assessment protocols. We have institutions work with probation to assign individuals their duties in the event of a crisis and establish what lines of communication will be used to contact each other and the public. Probation is tasked with conducting regular safety drills and must designate a room for counseling and the crisis command post. Our Comprehensive School Safety Plan outlines the Suspension and Expulsion Policy, which covers Education Code 48900 and details the documentation process. Furthermore, an Inventory Audit for emergency supplies and materials was conducted in January 2020.

In addition, individual school sites develop safe school plans customized to address their specific needs. Site-specific safe school plans are kept at the sites and the administrative offices. The Safe and Healthy Coordinator has established Safety Committee meetings with the three Juvenile Institutions and the Safety Committee currently meets on a monthly basis. These meetings are intended to review policies and procedures for fire, earthquake, and emergency situations in a collaborative effort with Orange County Department of Education and Probation staff.

Teacher Preparation and Placement

The teacher data displayed in this SARC is from the 2020-21 and the 2021-22 school years. This table displays the number and percent of teacher authorization/assignment as well as the total number and percent of teaching positions at the school, district, and state levels. For questions concerning the assignment of teachers outside their subject area of competence or the credential status of teachers, visit the California Commission on Teacher Credentialing website at <https://www.ctc.ca.gov/>.

Note: The data in these tables is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned to based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.
