iPad & iPod Touch in Assistive Technology

The ability to create a personalized device using the iPod Touch or iPad makes this the perfect tool for Assistive Technology. Imagine being able to monitor, reward and teach a student all from one device. Attendees to this course will discover different applications that allow for managing, teaching, and rewarding students in a classroom.

Agenda

4:00 pm - Course
- Course is based on Universal Design for Learning
- Communicating with Images
